Dear Parents,

This is a fun week for the first graders. We will be putting our "Community" together on Friday. We will see all the work that has gone into the creation of their buildings and the kids will present it to their classmates. We will build streets and add signs to bring our community to life. We are working on telling directions, reading maps and figuring out the concepts of states, continents and the words. These are hard concepts for first graders to grasp so if you have an atlas or can look at maps at home that is fun too. Marking places you have been or are going to go is a great way for them to start to understand this concepts. If you have any problem doing this project at home please let me know asap. I can make time for them to do something here at school so that they can be a part of our project! Keep working on those sight-word lists! Remember to review all the other lists once in a while too. ☺ The homework on Thursday will be what the kids use to present about their building, telling if it provides a good/service or want/need and telling who at home helped them with the project. If you have any questions please let me know!

Up Coming Event: Monday, Feb. 4- Visiting author
 Tuesday, Feb. 5- Prairie to River Bend Nature Center

Have a great week! Stay WARM!
 Paula ☺
