	All share this week.			

Dear Parents,

First of all **THANK YOU!** Thank you for all the support that you have given to your child this year. For helping them with their homework and making sure they come dressed appropriately for the weather and activity. For knowing that when I had to tell you something about behavior, academics or a social need that I was trying to help your child be the best they can be. I knew that when I sent an e-mail that you had taken it seriously and talked to your child about it. You all have **AMAZING** children and I can not tell you enough how much I have enjoyed this class. They work well together, they accept each other as individuals and they are **KIND**. Great job parents and families!!

Also thank you for the support you have shown this past couple of weeks when my sister passed away. The notes, cards and hugs from “my kids” meant the world to me!

This is going to be a busy, fun week at school. I will be sending portfolios home on Thursday along with the Report Cards. Please make sure to empty your child’s backpack each night so they have room for “stuff” the next day.

One final plea from me...Please set time up each day to read, write and practice math this summer. The “summer slide” is real and we have worked so hard this year. I can tell the kids to do it, but it takes a family commitment. Just 15 minutes a day can help your child be ready for next year. 😊 Thank you again for everything and every one of your kids will always have a special place in my heart. I will be sending some materials/ideas for summer practice. 😊 Thank you for a great year!! Paula 😊
