

Andrew's Weekly Peek 11/28/22 - 12/2/22

Upcoming Events

December 2: Report cards coming home

December 9th - 6:30 pm: Winter Program

Hello Woodlands families!

When we return to school we will be working hard to memorize our winter program songs.

5th grade will have a math assessment on Tuesday, on Unit 2. Please view the study guide to the right for example problems.

We will also begin our first writing unit: personal narratives: memoirs. We will be learning about memoirs first, then writing our own next week.

In science, we will be working on erosion by building a model foundation for a house on a hill. We will then test our designs while simulating a landslide.

Report cards will be coming home on Friday. Hope everyone has a great week!
