Dear Families,

In Strategies this week we have been talking about character traits and visualizing, or "making a movie in our head." We finished writing our fall paragraphs where we learned about proper paragraph structure. We are finishing up our last scarecrow stories. That has been a long project that we’ve worked hard on! In Social Studies we’ve learned about how Lewis and Clark and the Corps of Discovery explored the land of the Louisiana Purchase. Today’s Sci Fri experiment was to make predictions about whether some of our Halloween candy would sink or float and why. We discovered that air pockets inside of our candy makes a big difference in whether it sinks or floats.

**Upcoming Events**
Tuesday, Nov. 26th: Fall Music Program 1:00 & 7:00
Wednesday, Nov. 27th - Friday, Nov. 29th: Thanksgiving Break
Monday, Dec. 2nd: P.T.O. Meeting 7:00 p.m.
